

POWER PLATFORM

ONLINE WORKSHOPS

1 Online introduction meeting

6 Online workshops meeting

Start: Introduction meeting (**October 27th or November 3rd**)

Workshops - November 8th

Presenters - Senior Developers from Avanade

Who We Are

At Avanade, our vision is to be a leading digital innovator, creating great experiences as we realize results for our clients and their customers through the power of people and Microsoft ecosystem.

What We Offer

The Power Platform workshops will allow you to get to know the largest Low-Code / No-Code platform from Microsoft. During the meetings, you will learn the basic issues related to the platform and will build the first application based on the Canvas app. Participants do not need programming experience to join the workshop. The assumption of the Low-Code / No-Code idea is the affordability and ease of building business solutions without programming foundations. Each participant, after completing the workshops and completing the demonstration application, will receive a certificate of completion of the workshop and will have a chance to take part in a recruitment interview to check the acquired knowledge. Each meeting will be held in the formula: presentations + live demo. During the demo, participants repeat the steps shown by the presenter.
